## **8 So What!**

Everything we do is tragic  
never seems to come out wrong.  
Everything we do is magic  
wrong the song goes on and on, and on.  
**SO WHAT!, SO WHAT! We care, SO WHAT!**  
Everything we see is inside  
never is this theory wrong.  
Everything we think we control,  
nothing can go wrong.  
**SO WHAT!, SO WHAT! I care, SO WHAT!**  
Everything is quiet different.  
Everything that we could say.  
Works for one but not another,  
the way of no way.  
**SO WHAT!, SO WHAT! We dare, SO WHAT!**  
Everything we love is magic.  
Seldom is this theory wrong  
so what...

## **3 Just everyday life on the midway**

I Hope you'll forgive this intrusion. Oh it's you again. You mind is twisted.  
Not unbelievable. What do you think? Hey I'm talking to you!  
Not unbelievable. Magnificent effort. You may go. Let me see your ID's.

**11 Well, that can't be good.  
Hey!**

**13 And how does that make you feel? Good news/Terrible news  
heh heh heh. That's right! Good News. Peace.  
heh heh heh. That's right! Terrible News. Peace.  
Heh heh heh, Peace  
Peace.**

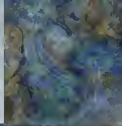

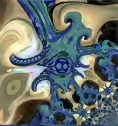

**14 Cold World/Warm Heart**  
**Altered states of consciousness**  
**Now you're on to something.**

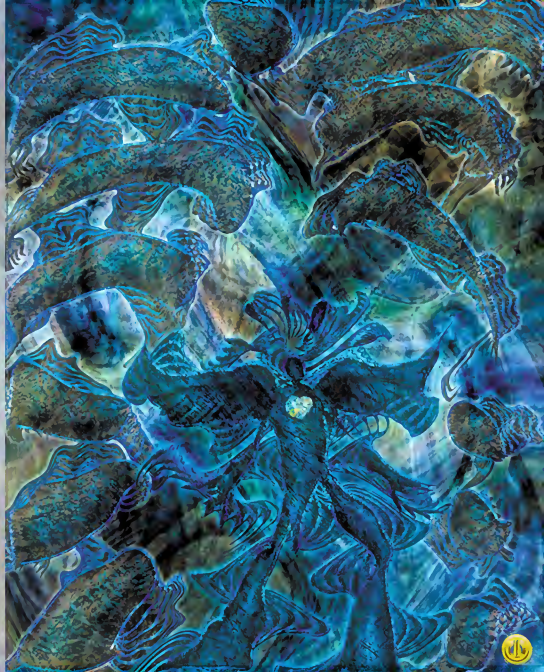

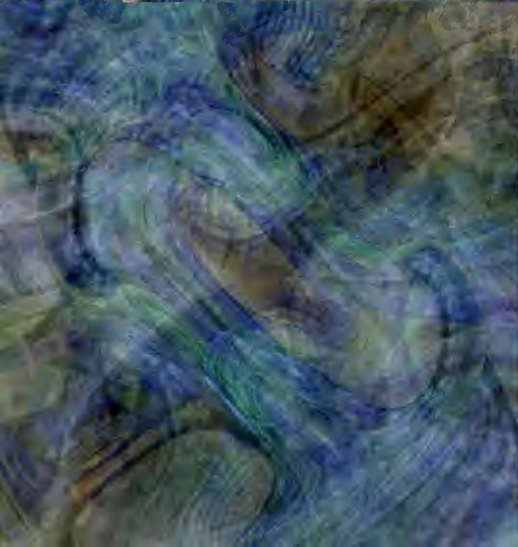

**On painting with chaos.**

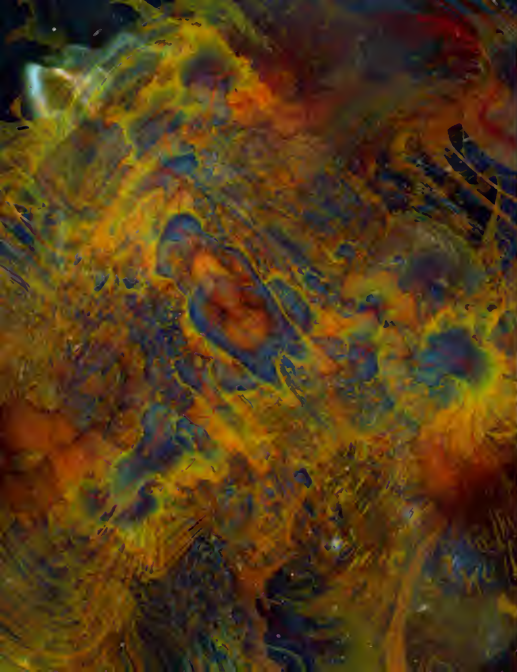

The paintings here are my digital work, like my music I like to show the dense aliveness of even the most mundane aspects of things.

On one part of the page is the color chaos I created and then the final painting. None of the paintings go with any of the songs so much as they all express my multilayered view of reality. I hope you enjoy them.

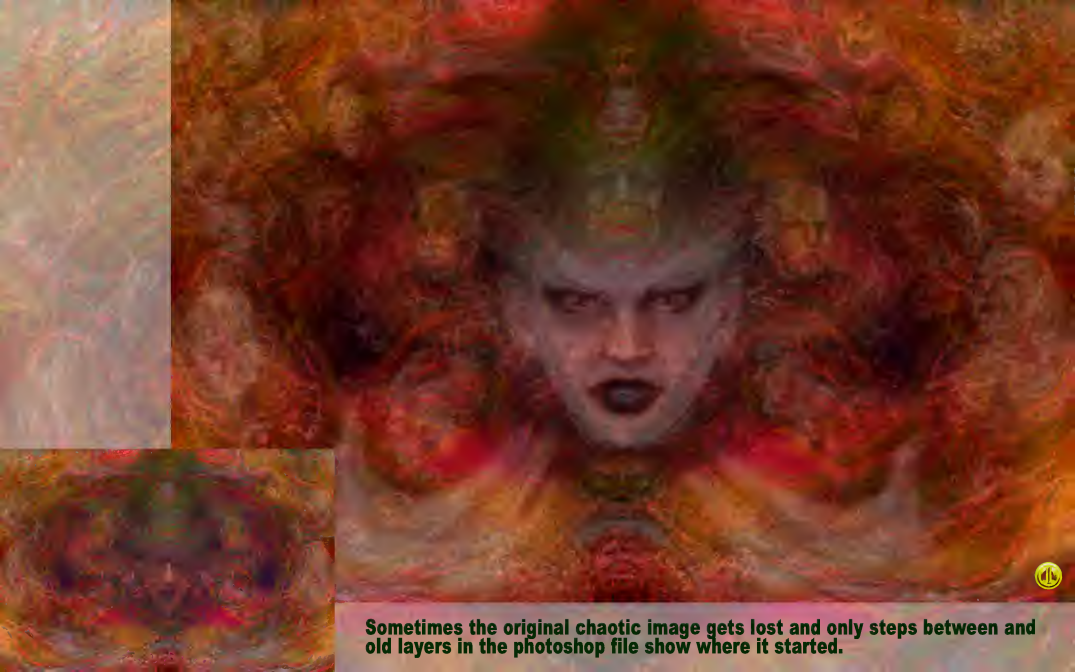

Some  
“in process”  
steps.

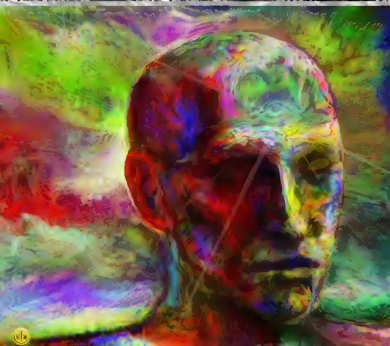

**Sometimes the original chaotic image gets lost and only steps between and old layers in the photoshop file show where it started.**

**Sometimes they only go as far as the chaos.**
